

RULE 2.450. TECHNOLOGICAL COVERAGE OF JUDICIAL PROCEEDINGS

(a) Electronic and Still Photography Allowed. Subject at all times to the authority of the presiding judge to: (i) control the conduct of proceedings before the court; (ii) ensure decorum and prevent distractions; and (iii) ensure the fair administration of justice in the pending cause, electronic media and still photography coverage of public judicial proceedings in the appellate and trial courts of this state shall be allowed in accordance with the following standards of conduct and technology promulgated by the Supreme Court of Florida.

(b) Equipment and Personnel.

(1) At least 1 portable television camera, operated by not more than 1 camera person, shall be permitted in any trial or appellate court proceeding. The number of permitted cameras shall be within the sound discretion and authority of the presiding judge.

(2) Not more than 1 still photographer, using not more than 2 still cameras, shall be permitted in any proceeding in a trial or appellate court.

(3) Not more than 1 audio system for radio broadcast purposes shall be permitted in any proceeding in a trial or appellate court. Audio pickup for all media purposes shall be accomplished from existing audio systems present in the court facility. If no technically suitable audio system exists in the court facility, microphones and related wiring essential for media purposes shall be unobtrusive and shall be located in places designated in advance of any proceeding by the chief judge of the judicial circuit or district in which the court facility is located.

(4) Any "pooling" arrangements among the media required by these limitations on equipment and personnel shall be the sole responsibility of the media without calling upon the presiding judge to mediate any dispute as to the appropriate media representative or equipment authorized to cover a particular proceeding. In the absence of advance media agreement on disputed equipment or personnel issues, the presiding judge shall exclude all contesting media personnel from a proceeding.

(c) Sound and Light Criteria.

(1) Only television photographic and audio equipment that does not produce distracting sound or light shall be used to cover judicial proceedings. No artificial lighting device of any kind shall be used in connection with the television camera.

(2) Only still camera equipment that does not produce distracting sound or light shall be used to cover

judicial proceedings. No artificial lighting device of any kind shall be used in connection with a still camera.

(3) It shall be the affirmative duty of media personnel to demonstrate to the presiding judge adequately in

advance of any proceeding that the equipment sought to be used meets the sound and light criteria enunciated in

this rule. A failure to obtain advance judicial approval for equipment shall preclude its use in any proceeding.

(d) Location of Equipment Personnel.

(1) Television camera equipment shall be positioned in such location in the court facility as shall be

designated by the chief judge of the judicial circuit or district in which such facility is situated. The area

designated shall provide reasonable access to coverage. If and when areas remote from the court facility that

permit reasonable access to coverage are provided, all television camera and audio equipment shall be

positioned only in such area. Videotape recording equipment that is not a component part of a television camera

shall be located in an area remote from the court facility.

(2) A still camera photographer shall position himself or herself in such location in the court facility as

shall be designated by the chief judge of the judicial circuit or district in which such facility is situated. The area

designated shall provide reasonable access to coverage. Still camera photographers shall assume a fixed

position within the designated area and, once established in a shooting position, shall act so as not to call

attention to themselves through further movement. Still camera photographers shall not be permitted to move

about in order to obtain photographs of court proceedings.

(3) Broadcast media representatives shall not move about the court facility while proceedings are in

session, and microphones or taping equipment once positioned as required by subdivision (b)(3) shall not be

moved during the pendency of the proceeding.

(e) Movement During Proceedings. News media photographic or audio equipment shall not be placed in or

removed from the court facility except before commencement or after adjournment of proceedings each day, or

during a recess. Neither television film magazines nor still camera film or lenses shall be changed within a court

facility except during a recess in the proceeding.

(f) Courtroom Light Sources. With the concurrence of the chief judge of a judicial circuit or district in which a court facility is situated, modifications and additions may be made in light sources existing in the facility, provided such modifications or additions are installed and maintained without public expense.

(g) Conferences of Counsel. To protect the attorney-client privilege and the effective right to counsel, there shall be no audio pickup or broadcast of conferences that occur in a court facility between attorneys and their clients, between co-counsel of a client, or between counsel and the presiding judge held at the bench.

(h) Impermissible Use of Media Material. None of the film, videotape, still photographs, or audio reproductions developed during or by virtue of coverage of a judicial proceeding shall be admissible as evidence in the proceeding out of which it arose, in any proceeding subsequent or collateral thereto, or upon retrial or appeal of such proceedings.

(i) Appellate Review. Review of an order excluding the electronic media from access to any proceeding, excluding coverage of a particular participant, or upon any other matters arising under these standards shall be pursuant to Florida Rule of Appellate Procedure 9.100(d).

Court Commentary

1994 Amendment. This rule was copied from Canon 3A(7) of the Code of Judicial Conduct. Canon 3A(7) represented a departure from former Canon 3A(7) [ABA Canon 35]. The former canon generally proscribed electronic media and still photography coverage of judicial proceedings from within and in areas immediately adjacent to the courtroom, with three categories of exceptions — (a) use for judicial administration, (b) coverage of investitive, ceremonial, and naturalization proceedings, and (c) use for instructional purposes in educational institutions. Subject to the limitations and promulgation of standards as mentioned therein, the revised canon constituted a general authorization for electronic media and still photography coverage for all purposes, including the purposes expressed as exceptions in the former canon. Limited only by the authority of the presiding judge in the exercise of sound discretion to prohibit filming or photographing of particular participants, consent of participants to coverage is not required. The text of the rule refers to public judicial proceedings. This is in recognition of the authority reposing in the presiding judge, upon the exercise of sound discretion, to hold certain judicial proceedings or portions thereof in camera, and in recognition of the fact that certain proceedings or portions thereof are made confidential by statute. The term “presiding judge” includes the chief judge of an appellate tribunal.
